

The **Edge** Difference

A **unique blend**
of **hospitality**
and **technology**
expertise

Managed

All devices, conditions, and states of our customers' systems are monitored and maintained 24/7 by highly skilled technicians in our advanced Network Operations Center.

Secure

Our broad portfolio of cybersecurity services and staff of Certified Information Systems Security Professionals (CISSPs) work to prevent, detect, respond to, or remediate cyberattacks.

Carrier-Class

Edge is an FCC-certified communications service provider with georedundant Tier 1 data centers and core network.

Nationwide

With offices in Dallas, New York and Miami, Edge deploys teams throughout the country.

About **Edge**

Edge provides hoteliers with a comprehensive solution for all technology requirements, from initial strategy to systems deployment to ongoing managed services.

Edge maintains a specialized professional services team of experts to advise, implement, and manage all aspects of hospitality technology and IT, including Virtual CTO, Pre-Opening and Technology Transition services.
